Fuel Consumption:	2 liters per 100 kilometers (comprehensive fuel consumption of 100km as low as 1.8/1.6L)
Fuel Tank Capacity:	53
Engine Type:	BYD487ZQA(2.0TI)

### Applications:

The H6 is a petrol hybrid car that offers a new energy solution, making it an eco-friendly car that is perfect for those who are environmentally conscious. Its new energy technology allows the car to consume less fuel, making it cost-effective and efficient to use. As a result, it is an ideal car for individuals and businesses who are looking for an affordable and sustainable mode of transportation.

The H6 has a humanized comfort configuration that includes main and passenger electric seat adjustment, seat ventilation and heating, kick induction electric taildoor, and independent automatic air conditioning in the back row. These features make the H6 a comfortable and convenient car to use, especially during long drives.

The Byd Tang New Energy 2024 EV Glory Edition is a hybrid car that has a pure electric driving range of 60 km (top speed version up to 80 km). This makes it perfect for individuals who are looking for a car that offers both fuel efficiency and electric power. It is an ideal car for city driving and can be used for various occasions such as commuting to work or running errands.

The minimum order quantity for the H6 is 1, and the payment terms are T/T. The delivery time is 5-8 word days, making it a convenient car to purchase. With its new energy technology and environmentally friendly features, the H6 is the perfect car for individuals and businesses who are looking for a sustainable and cost-effective mode of transportation.

### Support and Services:

Our Petrol Hybrid Cars come with comprehensive technical support and services to ensure that you have the best driving experience possible. Our team of experts is always available to assist you in case you have any questions or concerns regarding the product. We offer regular maintenance services to keep your car running smoothly and efficiently, as well as repair and replacement services for any

damaged parts. Additionally, we provide software updates to ensure that your car is always up-to-date with the latest technology and features. Our goal is to provide you with the highest level of support and service possible, so that you can enjoy your Petrol Hybrid Car to the fullest.

## Packing and Shipping:

### Product Packaging:

The Petrol Hybrid Cars will be carefully packaged in a sturdy cardboard box that is designed to protect the car during shipping. Inside the box, you will find the car wrapped in protective foam and plastic to prevent any damage during transit. We take great care in packaging our products to ensure they arrive at your doorstep in perfect condition.

### Shipping:

We offer free shipping for all Petrol Hybrid Cars within the United States. Orders are processed within 1-2 business days and typically take 3-5 business days to arrive. We also offer expedited shipping for an additional fee. Please note that we currently do not ship internationally.
